

# Multi-Protection Broad-Spectrum SPF50

Daily oil-free anti-aging moisturizer with sunscreen

## primary benefits

Oil-free, lightweight, anti-aging moisturizer with a SPF 50 to protect skin from both UVA and UVB rays. Formulated with powerful ingredients that help reduce the appearance of fine lines and wrinkles.

## points of difference

Contains a blend of three unique peptides for optimal anti-aging activity. Includes ACS-456, a proprietary blend that provides an IPF (immune protection factor) to further protect the skin from UV stress and damage. A strong blend of antioxidants including THD Ascorbate (Vitamin C) and Epigallocatechin Gallate (EGCG) from Green Tea help prevent long-term skin damage.

## who benefits

All skin types need daily sunscreen and antioxidant protection. Excellent for normal to oily skin types. Ideal daily moisturizer for those who prefer a lighter weight high SPF.

## how to use

Apply evenly to face and neck as part of your morning routine. This should be the last step before make-up application. Can be used with Vitamin C Lotion 15% or 30% for added antioxidant protection.

Daily oil-free anti-aging moisturizer with sunscreen

## F R E Q U E N T L Y   A S K E D   Q U E S T I O N S

**1 Is this product considered a broad-spectrum sunscreen?** Yes. Multi-Protection cream contains Avobenzone to help protect the skin from UVA rays and Octinoxate and Octisalate to help protect the skin from UVB rays.

**2 What is the difference between UVA and UVB rays?** UVA rays penetrate the skin deeper than UVB rays and are more responsible for premature aging such as wrinkling and leathery skin. UVB rays primarily cause skin redness, inflammation and burning. Both UVA and UVB rays have been shown to cause skin cancer.

**3 Does this product help reduce the appearance of fine lines and wrinkles?** Yes. Multi-Protection cream contains three different peptides which work to increase hyaluronic acid synthesis, reinforce the dermal-epidermal junction, and increase collagen production for a firming and filling effect.

**4 What antioxidants are in Multi-Protection cream?** Multi-Protection cream contains Epigallocatechin Gallate (EGCG) from Green Tea, Pomegranate Extract, THD Ascorbate (Vitamin C), and Vitamin E to help protect the skin from free radical damage. This antioxidant blend also helps protect the skin from oxidative stress.

**5 I am prone to breakouts. Can I use this product?** Yes. Multi-Protection cream is oil-free and contains ingredients to reduce the oiliness often associated with sunscreens.
